

Connectivity

Secure, reliable network
connectivity for businesses of
every shape and size

Why choose Focus Group for connectivity?

Ensuring your business is firing on all cylinders is fundamental. With reliable connections keeping you in touch with the outside world.

When it comes to connectivity, the faster the better right? Let Focus Group take care of it. Our team of specialists are here to deliver the right network and internet solutions for your business. We'll be by your side at all times to ensure you stay connected. Leaving you free to pour all your energy into growing your business.

We do it differently. It's our approach to building personal relationships with our customers that makes Focus Group stand out from the crowd. Plus, we're a friendly bunch! We'd love to spend time getting to know your business so we can find the right solutions to keep you one step ahead of the competition.

We'll make it our mission to provide you with:

Business internet connectivity

Ultrafast, stable connections that are second to none.

Independent advice

As one of the UK's leading independent suppliers, we'll provide the best solutions for your business.

Comprehensive services

Connectivity, telecoms and IT. All your essential services, one supplier.

Competitive prices

With preferential commercial contracts with our partner networks, we'll keep your speeds high and your costs low.

Futureproof solutions

Bespoke, resilient and flexible services that will grow with your business.

Seamless installations

Our provisioning experience is second to none.

Dedicated support and maintenance

Around the clock.

Our Services

Internet connectivity

Delivering reliable, efficient and fast internet services to keep you connected to the most important people to your business and ultimately drive up productivity.

Our internet services include:

- Fibre To the Cabinet (FTTC)
- Fibre To the Premises (FTTP)
- SoGEA and SoGFAST

Leased lines

If speed is key, a dedicated leased line will provide an ultra-fast, reliable connection and symmetrical bandwidth, just for your business. The team at Focus Group will install, deliver and maintain the ultimate connection with upload and download speeds of up to 10Gbps. Rock solid performance, at all times.

SD WAN & multi-site networks

Connect your UK sites with a secure, private IP network that enables fast, reliable communications between multiple offices. Our MPLS and VPLS technology ensures maximum service availability and SD WAN solutions give you control and flexibility.

All integrated to set up a multi-site network that facilitates strong connections and reliable data access, for everyone across your business.

Support and maintenance

We understand every business is different, so our support services are designed to suit you.

We provide fully managed support and solutions including remote and on-site technical support; hardware maintenance and installation, and ongoing monitoring to ensure your data infrastructure is delivering peak performance.

Plus should the need arise, our team will work to resolve issues. Rapidly.

Spotlight on SoGEA

Talk of the town, SoGEA – Single Order Generic Ethernet Access - is changing the face of telecoms and broadband.

You can wave goodbye to your traditional phone line installation and its associated costs. SoGEA means you only need to place one order for your broadband data service, and you'll still receive the same performance as FTTC broadband.

Above all, it's future-proof as the UK moves to an all-IP network.

✓ Backed by the world's leading vendors

Landline rental costs no longer apply so you'll only pay for your broadband data connection, at the same data rates as FTTC broadband.

✓ Reliable

A SoGEA service uses established, robust networks so the chance of unstable connections through traditional phone lines is reduced.

✓ One provider

Your SoGEA service will come from one supplier with no separate contract (or tie) with a separate phone line supplier.

✓ Future-proof

The traditional PTSN network will be switched off by January 2027, as the UK prepares for the move to full fibre. You'll be one step ahead with SoGEA.

CUSTOMER STORY

Brighton & Hove Albion

As a long-time partner and supporter of Brighton & Hove Albion, Focus Group have been delivering match-winning technology to underpin the club's exponential growth over the last 20 years.

Following a thorough evaluation of the specific requirements of the club across its IT, connectivity, telecoms and mobile systems, Focus Group implemented a raft of innovative and future-proof solutions.

A state-of-the art Aruba network solution now delivers a reliable and secure network infrastructure, whilst a high-performance internet network allows staff and stadium visitors to stay connected, even with a packed stadium.

Alongside improving the club's internet connection, network infrastructure and security, the mobile specialists at Focus Group implemented a cost-effective and fully managed mobile phone package.

The suite of complementary solutions and services provided have given the club a reliable, secure, future proof platform that can help them thrive in the Premier League.

The Focus Group 24-7 support team remain at Brighton & Hove Albion's side at all times, committed to ensuring the club runs like clockwork – keeping its IT optimised, its team connected at all times, its supporters happy and above all, match ready!

“Focus have successfully reformed our Wi-Fi connectivity which has made a real difference to our staff, players and fans and also provide the club with excellent telecommunications support.

The team at Focus are knowledgeable and are always on hand to promptly assist with any problems or queries.”

Russell Wood, Head of Commercial
